

ENLIGHTENED QUOTES

A guru doesn't need to be physically present in a human body for the realization of a great practitioner. Nevertheless, we do need a physical human guru to guide us when we are at the very beginning stage.

The entire Mila and Marpa's life styles can be a source of great guru to us. If we can apply some of their qualities in our lives, we will certainly eliminate many of our faults. This can be considered as blessings and guidance from our lineage master.
